

STAR SOUTH

**Our ESG  
Commitment**

We ensure that our business practices are  
*ethical and contribute to good corporate governance.*

---

We sincerely believe that when people and partnerships prosper, business prospers.

We also believe that we have a responsibility to our environment, our people, and those around us. We've seen it first-hand: if we live our commitment and do our part, each area in our wonderful network of farmers, growers, suppliers, retailers, trade partners, and employees can flourish.

We believe in not only giving but also in teaching, raising awareness, and supporting those around us to live the same commitment.

## *Environmental*

Our offices run on solar power and borehole water, make us environmentally sustainable. Our farmers are Global Gap accredited and adheres to globally accepted Good Agricultural Practices.

---

## *Social*

We support various charities within our local community, particularly focusing on the youth, education and career development. All our suppliers are SIZA accredited to ensure fair treatment of all farm workers.

---

## *Governance*

The Board and Shareholders adhere to the principles of the King IV report guidelines and Companies Act.
